RANGER

S3-Safetyshoe with sole plate for wet work

Ranger by name and nature.

The 'go anywhere' safety shoe that moulds itself to your foot. As high version of the Rocky, the Ranger uppers are crafted from soft, supple nubuck leather. Anti-slip soles will keep you upright on almost all surfaces. It's a perfect shoe for those working in Transport and Logistics because of its versatility. The Ranger is suited to all aspects of loading and unloading, climbing onto palette stacks, and in and out of truck cabs - whatever the weather. This is an entirely sustainable safety shoe: all the materials are reused, for example in furniture, building materials and, of course, to make new safety shoes.
